

IN THE SPECIFICATION:

Please substitute the first paragraph under Field of the Invention on page 1 with the following paragraph:

This patent application is related to a series of other patent applications including U.S. Patent Application Serial No. 09/667,637, filed September 22, 2000 and entitled "LINE ITEM DATA PROCESSING," and U.S. Patent Application Serial No. 09/667,611 filed September 22, 2000 and entitled "CAPTURE HIGHLY REFINED CLAIM EVALUATION INFORMATION ACROSS MULTIPLE WEB INTERFACES." This patent application and the noted other patent applications have common inventors and are assigned to a common entity.

Please substitute the paragraph beginning with "Fig. 2" on page 7 and extending on to page 8 with the following paragraph:

Fig. 2 shows a computer network containing an insurance host server 130 and a claimant client 110. In this example, a claimant client 110 is interconnected through network 100 to the insurance host server 130. Claimant client 110 includes conventional components, such as processor 205, memory 215, I/O controller 220, and network interface 230. The processor 205, memory 215, I/O controller 220, and the network interface 230 are interconnected through a bus 210. Mass storage 225 is interconnected to the system through I/O controller 220. The architecture illustrated in claimant client 110 is typical for a "PC" type computer, although any type of computer capable of running an Internet browser is contemplated. While a PC typically runs WINDOWS® from Microsoft Corporation, a browser can run on claimant client 110 processing any operating system, such as MacOS, WINDOWS 2000, LINUX, or SOLARIS operating systems.

Please substitute the paragraph beginning with "Insurance host server 130" on page 8 with the following paragraph:
